Below are the new reviews your office received in the last 24 hours.

**Reviewer:** Allison C.

**Rating:** 5

**Review Title:** First root canal experience

**Review Body:** I was in need of a root canal for over two years. All of the potential risks and toxicity level of a traditional root canal left me very skeptical and unsure of whether I should have it done with my traditional dentist or just have the tooth pulled. I remembered randomly driving by Dr. Robbins office a few years prior, who had a sign outside regarding the toxic nature of fluoride use. I looked him up and set up a consultation. Dr Robbins was friendly, comforting, informative and unlike any other dentist I had visited in the past. I wound up scheduling the root canal w him after years of anxiety over having the procedure carried out. The day came and I was suprisingly calm and ready to just get it over with already... I arrived at the office to absolutely zero wait. Dr Robbins and his staff insured me that there was little need to be nervous - and they were absolutely right... My procedure progressed perfectly and I did not feel A THING!!!!!! Not even a pinch from the novicane. Even after I got home and returned to work in the following days - literally no pain. I was super impressed and extremely happy that I finally accomplished what needed to be done after all this time and that it was quick, easy, painless, and WAY healthier/safer than a traditional root canal. I will definitely be returning to Dr. Robbins in the future and would 100% recommend him. (And thats coming from someone who despises going to the dentist!!!!)
